Lynwood Border Leicesters

At Lynwood Border Leicesters our breeding strategy is to strive for continuous improvement in all areas of sheep production to produce an even line of high quality Border Leicester rams. Since the Stud's inception in 2010, we have used flock breeding values to further our breeding objectives while also placing a high priority on visual appraisal when classing our sheep.

This year's sale rams are an even and well presented line up that have taken off despite a rough start exhibiting great weight for age as well as muscle development and fat score. The rams were scanned and weighed by Trevor Pearce Scanning Services for Weight (ywt), Muscle Depth (yemd) and Fat Score (ycf) on 16 September 2020.

This year to offer previous and potential clients the chance to purchase rams if you are unable to attend in person, our sale is being interfaced with AuctionsPlus. For those who are able to attend, we ask that you adhere to COVID-Safe measures to ensure your safety as well as others.
